

Measuring Thickness on Pasta Machines

Sage Bray and Maggie Maggio

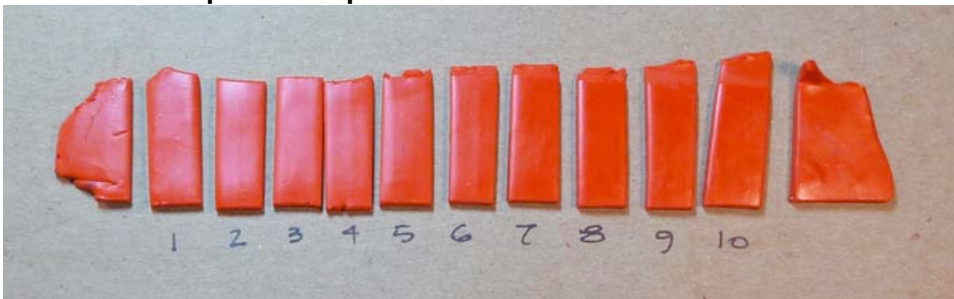

Playing Card Method

1. Starting with your #1 setting, count how many standard playing cards fit through without forcing them.
2. Note the number on the chart below.
3. Repeat for each setting.

Millimeter Method

1. Sheet a strip of clay in the center of the rollers at your #1 setting.
2. Cut the strip into ten pieces and stack them.

3. Measure the height of the stack with a metric ruler.
4. Divide by 10 to get the millimeter thickness.
5. Note the mm on the chart below.
6. Repeat for each setting.
